## RIVERS

By Holly Wafula

Rivers flow through many different landscapes. They cut through mountains and meadows, deserts and dry lands. Some rush with a fury and other meander slowly and softly. No matter where they are found, and how they flow, one thing remains true; wherever they go they give life. Life can be found within them and all around them.

In the Bible we read of rivers of Living Water. When we recognize our own inner thirst and we drink of Christ, when we repent and invite Life to come dwell in us; Jesus says that rivers of Living Water will flow from within us. He spoke of The Spirit.

God made each of us unique, some calm and some busy, some reserved others emotional. We are all different landscapes through which The River of Life wants to flow.

He wants to give Life within and spread Life through us. People need life, my children need life, my mate needs life. Not my life, all I am is a dry river bed. The most I can give is a whole lot of dust. We all need something more than dust. I need The river of Life and so does everyone else. He wants to feed me as He flows through me and also give Life to others. Will I allow that today?

Reflect on it!

# THE BTS PROGRAM

## Update

Our Born to Shine program for our young teenagers is continuing through the stories and lessons from the Old Testament. In August during the school break we held a two day BTS program.

The theme was God our Father and Friend. We have a great team who shares the teaching responsibility every Saturday. School consumes most of the time for most students here, but that will end this month as the school year comes to a close and their long holiday begins.

We look forward to welcoming our teens back from boarding school and seeing more of them around the office for the next few months!

# YOUNG ADULTS

## Class Update

Our young adults program has become a bit more formal and we have been happy to see some consistency with attendance! When we first began the class it was open to anyone, anytime, and we found that the major influx came around tea time.

We did some restructuring and talked with them about it and have been pleased with the response! We have been sharing different topics in devotions and learning different life lessons, as well as sharing fun moments.

Brian has been sharing about the job interview process and how to write a resume. Nicko shared a fun moment with us and taught how to make sweet sugared popcorn! We are enjoying this class and the opportunity it gives to continue to share and grow together with these young people!

# SCHOOL MINISTRY

## Update

School ministry is continuing on well. I have to share something cute I witnessed when I attended the class for the youngest students. Lucy had shared about Paul and Silas and taught them about praising God.

She does it so well, keeping the attention of over a hundred little kids is not an easy task.

At the end she asked several of them what the point of the story was.. little hands pop up and one by one they stand up to share. One little boy stood up and said, "Environmental!" Hilarious!! I had a good laugh! He obviously wanted to participate and had thought of something that would sound important! We pray seeds are planted in the hearts of all the students, and that they will grow up loving their Savior!!

# FEEDING PROGRAM

## Update

We hold two feeding programs a month or two programs that involve a meal served.

This year it has been our goal to reach into all the different villages in Kibera. We thank God for all the doors He has opened for us to share Jesus and warm meal with so many new faces.

We have reached to eight different villages so far this year. The team that cooks and teaches and dances and feeds and cleans are just the best, we couldn't do it without all of our wonderful volunteers!

# KADONGO

John and Chami have been busy in the village. Last month they were made aware of a situation concerning a few teenage girls in the area. It was quite an ordeal but we are so happy to share that both girls are now out of the hard place and are in boarding school. I will be following up in the next few weeks with more details as we are trying to find sponsors for them so they can remain in school until they graduate!

John has been invited to a local High School to be sharing a weekly devotion with the boys there. The feeding program and Bible study are carrying on and they are praying about some new programs they hope to begin in the next few months!!

At the end of August several of our team from Nairobi joined John and Chami for a three day BTS week in the village. Every day there was a meal served and the Topic for the three days was God our Father and Friend! On the last day we were able to help all the girls with a package of pads!

## BIBLE STUDY & FRIDAY PRAYERS

### Update

Every Tuesday evening we share a Bible study with Tunedem band, and on Fridays we have prayers.

The number of young people who are coming out is so inspiring! Life on earth is full of challenges but we have the source of Life that overcame it all, who will carry us through to the end!

# CROSSOVER8.1

In Kenya students in 8th grade have to take a test that covers everything they have ever learned in primary school to graduate to High school. The exam is several days long and most of 8th grade is spent just reviewing information so that they are ready.

It is quite a stressful time for students. Last week we hosted our second annual Crossover 8.1 event to encourage them as they prepare for the exam. Twelve schools attended and we had 415 eighth graders who came. We began for the day with worship and devotions about Crossing over from death to Life. The rest of the day was full of skits, dancing, a talent show, lunch, and several different speakers who shared their stories of life and overcoming.

It is encouraging for students to hear testimonies of people who have grown up in Kibera and are now at a different place in life, regardless of what they scored on a big exam.

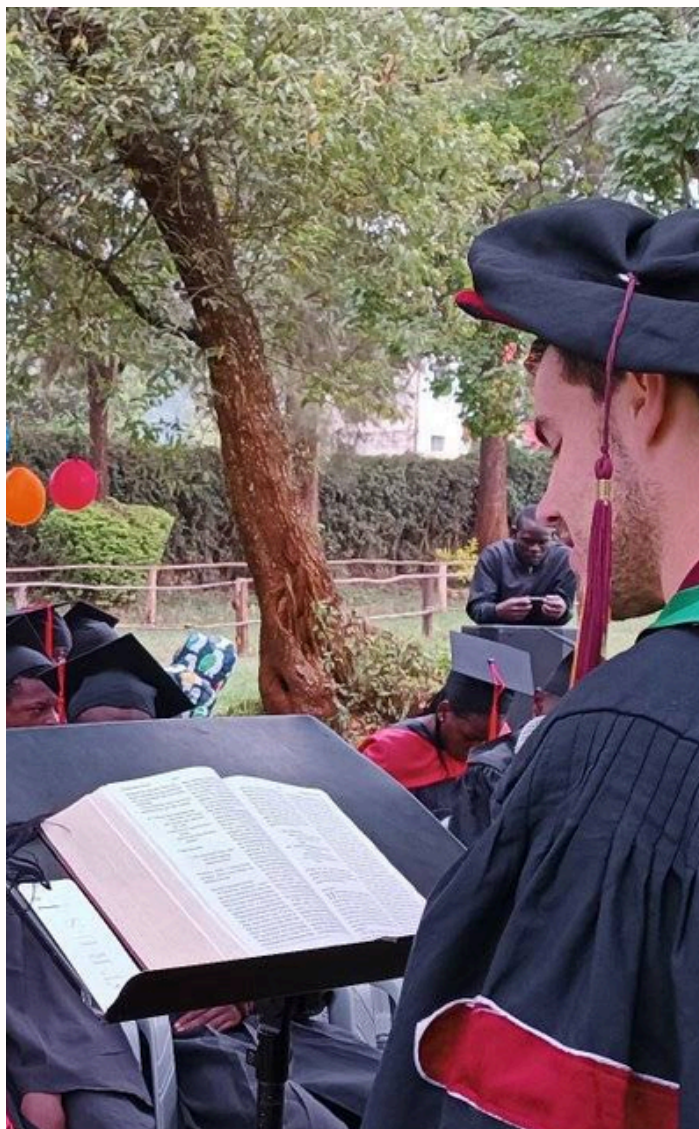

# EX-CANS

## Update

EX CANS Our new ex-cans class will begin in January and we are wanting to rename the program. We have been stuck on the verse Psalm 145:4 and it seems to perfectly describe our desire.

We would like the name of our program to reflect this verse. We want to invite all of you to share any name that might come to you! Please send us an email with your ideas!
